

Hello Teacher Agata,

Hope you can share it with your students, colleagues , the principal and with the parents.

I've been during the month of January in three different schools and I am very happy to say that the best experience I had was at your school.

Although it was a short time and in a few schools I'm sure that STO 5 was the best school I worked. With most dedicated teachers it was easy to find polite students with great knowledge of English. While students in other schools they could hardly say their name and age, in your school we can really connect and exchange knowledge and culture. Then, to the principal and to the teachers, congratulations! You have a visibly high quality work. To the parents, I would say that their children are being well educated and they will be great citizens.

Through this email I would like to thank not only for having me , but to humbly request that encourage their students to develop leadership. I'm sure with all this educational background they have the ability to be great leaders and to be the future of their country.

Again, congratulations for the hard work and thank you for having me in your school.

Best Regards,
Luísa Molenda

PS : I asked Natalia (the girl from AIESEC) to take good care of your school and to always choose the best exchange students to work with you.
